BEFORE YOU BEGIN

☆ How to Play ☆

Word Search

Find every word from the list hidden in the grid. Words run in a straight line - across, down, diagonally, and sometimes backwards. Circle each word in the grid and tick it off the list. Spaces in names are left out.

Sudoku

Fill every empty square with a number from 1 to 9 so that each row, each column and each of the nine 3 x 3 boxes contains every number exactly once. No math is needed - it is a logic puzzle. Each puzzle has exactly one solution and can be solved without guessing.

Mazes

Start at START and draw a path to FINISH without crossing any lines. There is only one way through! The mazes get bigger and trickier as you go. Use a pencil so you can erase.

Word Scrambles

The letters of each word have been mixed up. Put them back in order to spell a word that fits the page's theme. Every scramble has only one correct answer.
